San Jose, CA

TEMPORARY POWER SOLUTIONS

RESA Temporary Power Products are TURNKEY and FULLY CUSTOMIZABLE!

- Our experienced Sales Engineers will help streamline the design process.
- We will work with our production team to meet your tightest delivery requirements with most temporary power orders shipping within 1-2 weeks ARO.
- With temporary power requirements constantly changing, RESA is very flexible and responsive with change orders up to the shipping date.
- RESA offers both guaranteed buy-back and rental options to help keep your net costs down.

RESA Power specializes in electrical power solutions to ensure safe, efficient and reliable generation, transmission and distribution of power. We have provided electrical solutions to thousands of companies throughout the United States and Canada on both a routine and a 24/7/365 basis for the last 18 years.

Mobile Temporary Power Skids

- LV Custom Skids
- LV 480 to 120/208 Skids

Custom Branding Available!

All Mobile Temp Skids are built with standardized components for convenience, with every skid made from RESA tested, name-brand components, including a fusible primary disconnect switch, transformer, main breaker panelboard and circuit breakers, which all carry a **12-month warranty**.

These are customizable to include breakers, receptacles and other accessories specific to your job. 45, 75, 112.5 KVA combinations are stocked in San Jose, CA and ready for immediate shipment. Other KVA varieties are typically available with less than one week lead time.
