SACRAMENTO SERVICE

✓ Specializing in

- Commissioning & Acceptance Testing
- Preventative Maintenance & Testing
- Relay & Specialty Testing
- Power Systems Troubleshooting
- Power Systems Studies
- Power quality and Load Monitoring
- Arc Flash Training & Consulting
- Low Voltage Testing

✓ Engineering

- Short Circuit Analysis
- Protective Coordination Studies
- Arc Flash Hazard Risk Analysis
- Power Quality Recording
- Harmonic Distortion Analysis
- Load Flow Analysis
- Single Line Drawing update
- Data Collection for studies
- Arc Flash Training

✓ Troubleshoot

- Emergency Response
- Circuit Breaker Inspections
- Transformer Inspections
- Lockout/ Tagout Procedures
- Voltage Detection
- Current Flow
- Infrared Inspections
- Energization & De-energization

✓ Other Resources

- Transformer Oil Analysis (Lab Setting)
- Transformer Oil Repair (Field Setting)
- Circuit Breaker supply
- Circuit Breaker components
- Switchgear components
- Medium Voltage supply
- Technical Support

Full Electrical Testing & Services Emergency Response

Acceptance & Maintenance Testing

- Switchboard
- Switchgear
- Panelboards
- Switches (fused & non-fused)
- Grounding
- Oil Sampling
- Circuit Breakers
- Metering
- Motor Control Centers
- Infrared Scanning
- Ground Fault Testing
- Protective Relays
- Battery Bank Testing
- Cable (Low & Medium Voltage)
- Bus Duct & Bus Way
- Transformers
- Instrument Transformers
- Technical Support
